Introduction

The FY11 (2010-2011) edition of Iowa Public Library Statistics includes information on income, expenditures, collections, circulation, staff, and several other measures. Each section is arranged by size code, then alphabetically by city. The totals, averages, and percentiles for each size code grouping are given immediately following the alphabetical listings.

The following table lists the size code designations, the population range in each size code, the number of libraries reporting in each size code, and the total population of the reporting libraries in each size code. The total population served by the 543 libraries is 2,339,070. Population data is used to determine per capita figures throughout the publication.

Library size codes are based on the population of the city that the library was established to serve. Population figures are from the 2010 Census or most current special census.

Size	Population Range	Number	Total Population
A	Less than 500	146	45,645
B	500-999	131	95,164
C	1,000-2,499	135	208,999
D	2,500-4,999	49	172,732
E	5,000-9,999	41	282,020
F	10,000 – 24,999	17	234,502
G	25,000 – 49,999	11	350,698
H	50,000 and above	10	883,837
I	County Library	3	66,464

Of the 543 public libraries in Iowa, 522 submitted an annual survey for FY11. Only those public libraries that submitted an annual survey will be included in this report. The table of size codes (page 5) lists the public libraries alphabetically.

Summary

Public library statistics are used at the local, regional, state, and national levels. They are used to compare library performance, justify budget requests, track library data over time, assist in planning and evaluation, and provide valuable information for grants and other library programs. All 50 states collect information according to guidelines and definitions established by the Public Library Statistics Cooperative (PLSC).

The PLSC also provides state-by-state rankings for public libraries. In FY09, the latest national data available, Iowa public libraries ranked as follows in comparison with other states. With 543 public libraries, Iowa ranks 4th, behind New York, Illinois, and Texas in total number of independent public libraries.

Iowa Public Statistics FY11 – Income

The income section includes revenue from all government sources for FY11. It also includes non-governmental revenue such as gifts or endowments.

Library per capita income is included from city and total sources.

Per capita income is determined by taking the library's income and dividing it by the population of the city.

The listings that follow are in alphabetical order by size code. Use the Table of Size Codes on pages 5-6 to locate a library.
